

Personal, Social and Emotional Development

We have been learning to negotiate and resolve conflicts. We have been practicing positive behaviours and modelling kindness.

Communication and Language

All three classes have started Helicopter Stories. This is where we can tell a story and our friends can act them out on the 'stage'. We have also started show and tell, which builds our language and questioning skills.

Physical Development

We have been using playdough and loose parts to help develop our fine motor control. There is an amazing new playdough station in Buttercup Class!

Literacy

We have been reading lots of traditional tales, as well as learning about characters, settings and events. We have been writing lots of stories in our play and in carpet sessions.

In Reception we have been...
January 2024

Mathematics

We have been learning that whole numbers are made up of different parts. We have been exploring ways to make 5, 6 and 7.

Understanding the World

It's been very cold! We have been exploring ice and frost. We even had some snow! We have also started to use chromebooks with help from a grown-up.

Expressive Art and Design

We worked together to create a castle in the Pod! This inspired us to make crowns, swords and shields with the Junk Modelling and paints.
