

## **Reading**

The following sentences are linked to your child's current keyword list. It is really important to recap any previous lists at all times and then work on reading each relevant sentence. This can include all previous sentences before their current list. For example.... if you are on Keyword List 3 you can read the list 1, 2 and 3 sentences.

**Please do not go on to higher list sentences as your child might find these hard and this could be demoralising.**

Please encourage your child to track, with their finger, under each word as they read.

Discuss what each sentence says and ask questions to check they have understood what they have read. The PDFs by some lists this week, have their own questions to discuss together. Sentences can be read more than once before the questions are asked. Only ask the questions when your child can read the sentences fluently. There is an answer sheet on page 2. Understanding what they have read is very important.

The next keyword list can be requested by emailing your class teacher.

Please ensure that your child is able to read their current list by sight as flashcards, as opposed to reading them on the grid. Children are very good at remembering where words are and they then find it challenging to read them in sentences.

The sentences can be cut out and made into a book. The children can draw or find a picture to go with the sentence.

Free access to eBooks can also be found at:
