What have Year 2 been up to in May?

<u>KS1 SATS</u>

Your child may or may not have told you that they completed four different SATS tests in May. We always try not to worry the children as these form only a part of our own Teacher Assessments. There were two reading comprehension papers and two for mathematics. We were so proud of them as they did really well and we think most of the children actually enjoyed completing them! We will be very proud when sharing their work, including their writing, with two West Sussex Moderators on 15th June.

Well done children!

We are making the most of the different playground equipment at playtimes and enjoying playing on the field and within the trees.

The Lion and the Mouse

We have been sharing this text over the past few weeks. The beautiful illustrations and our class discussions have inspired role play, amazing writing, and super artwork using a variety of different media and techniques.
