

Personal, Social and Emotional Development

We have been playing together with adults to learn how we take-turns and negotiate each others ideas.

Communication and Language

We have been doing lots activities that help use to develop our language skills. Messy Play is great for this!

Physical Development

We have been engaging in lots of activities that help support our fine motor control.

Literacy

We are learning our letter sounds and blending sounds to make words in phonics. We have been enjoying writing within our play.

In Reception we have been...
November 2025

Mathematics

We have thinking about measurement during many of our Science experiments. We have been using different vocabulary to talk about our observations.

Understanding the World

We have been doing lots of experiments during Science Week. Some of us bought in our own experiments from home to share with our class.

Expressive Art and Design

We have started Helicopter Stories where we act out our own stories with our class.
